## Our Key services

Digital Radiography  
(X-RAY)

Digital radiography (DR) is an advanced form of x-ray inspection which produces a digital radiographic image instantly on a computer.

OPG 3D +  
Cephalometric Digital

A Cephalometric radiograph is a radiograph of the head taken in a Cephalometer (Cephalostat) that is a head-holding device.

Gastroscopy-Colonoscopy  
(ENDOSCOPY)

It is a test to look inside your body.

A long, thin tube with a small camera inside, called an endoscope, is passed into your body through a natural opening such as your mouth.

Dental  
(X-RAY)

Dental x-ray is a type of image of the teeth and mouth. X-rays are a form of high energy electromagnetic radiation. The x-rays penetrate the body to form an image on film or screen. X-rays can be either digital or developed on a film.

## Upcoming Services

### ECHOGRAPHY (Ultra Sound 5D)

It's a software package on the ultrasound unit that allows for more lifelike rendering of the baby's face.

### MAMMOGRAPHY

is an X-ray picture of the breast. Doctors use a mammogram to look for early signs of breast cancer. Regular mammograms are the best tests doctors have to find breast cancer early, sometimes up to three years before it can be felt.
